Home

REDe is an international network focused on building research capacity and preparedness to tackle emerging infectious disease outbreaks in Latin America and Caribbean.

The REDe platform provides:

- Bespoke resources and training to develop research knowledge, methods, skills and capabilities of researchers and frontline healthcare workers
- Unique networking and collaborative opportunities including finding experts, collaborators or research organisations
- Effective online knowledge sharing and dissemination system.

by the three EU funded consortia (ZIKAction, ZIKAlliance and ZikaPLAN). Its initial focus is on advancing rapid

Honduras Faculty activities

The screenshot shows a web browser window with the URL <https://rede.tghn.org/zika-network-map/honduras-faculty-activities/>. The browser's address bar shows the page is secure. The website header includes the logo for THE GLOBAL HEALTH NETWORK and a user profile for jackelinealger@gmail.com. A search bar is present with the text "What are you looking for?" and a "SEARCH" button. The navigation menu includes links for Home, About, Community, Zika Consortia, Network Map (which is highlighted), Research Resources, Knowledge Gap Analysis, and Training. Below the navigation menu, there is a link for "Funding opportunities/grants". The main content area features a sub-header "ZikaPLAN Network Map Honduras faculty activities" and a large heading "Honduras faculty activities". The text below the heading describes the Honduras regional faculty as a dynamic group of individuals with tireless energy and enthusiasm for building research capacity in Central and South America. It mentions Professor Jackeline Alger and her collaborators from key institutions in Honduras: Unidad de Investigación Científica, Facultad de Ciencias Médicas, Universidad Nacional Autónoma de Honduras; Hospital Escuela Universitario; Instituto de Enfermedades Infecciosas y Parasitología Antonio Vidal, Hospital de Especialidades San Felipe; and Colegio Médico de Honduras. Below the text, there are two sections: "News" and "Some past events:". The "News" section has a link for "Honduras REDe/TGHN Regional Faculty Presents at International Meetings" and a small image of a poster for the XIII Congreso Centroamericano y del Caribe de Parasitología y Medicina Tropical. The "Some past events:" section has a bullet point for "TGHN / REDe promotion in the National Medical Congress, Santa Rosa de Copán, Honduras, July 11-14, 2018". The Windows taskbar at the bottom shows various application icons and the system clock indicating 06:18 p. m. on 6/8/2018.

La pregunta de investigación >

La pregunta de investigación es aquella pregunta para la cual se ha diseñado un estudio que pueda darle una respuesta. De acuerdo con Hennink et al. (2011) una pregunta de investigación es "una pregunta a la que se propone responder a través de la recolección de datos". La misma guía el resto de las tareas subsiguientes en el proceso de investigación. Al final del proyecto, después de la recolección y el análisis de los datos, debería ser posible responder a dicha pregunta.

Funding opportunities/grants

Home

REDe is an international network focused on building research capacity and preparedness to tackle emerging infectious disease outbreaks in Latin America and Caribbean.

The REDe platform provides:

- Bespoke resources and training to develop research knowledge, methods, skills and capabilities of researchers and frontline healthcare workers
- Unique networking and collaborative opportunities including finding experts, collaborators or research organisations
- Effective online knowledge sharing and dissemination system.

The Network development is supported by the three EU funded consortia (ZIKAction, ZIKAlliance and ZikaPLAN). Its initial focus is on advancing rapid and coherent research response to the Zika outbreak.

 This Project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No.s 734548, 734584, 734857

decisiones concretas, priorizadas y oportunas. Me siento satisfecha con lo aprendido.

Saludos cordiales.

 Nelsy Mercedes Chacon Serrano
Oct. 7, 2017

Nelsy Chacón, Médico en Servicio Social (UNAH), Departamento de Lempira, Honduras.

Recibí el curso de Buenas Prácticas Clínicas, en el que puedo decir que es una herramienta útil, que nos brinda las orientaciones básicas y prácticas para el abordaje de una investigación en el campo de la Salud que permiten fortalecer las capacidades técnicas y operativas de los investigadores, a mi parecer es necesario apostar por una cultura de investigación y que el análisis de los resultados obtenidos en las mismas permitan tomar decisiones concretas, priorizadas y oportunas. Me siento satisfecha con lo aprendido.

Saludos cordiales.

PD: acerca de mi comentario anterior al parecer se modificó el contenido del texto al subirlo a la red, y no encontré la forma de editarlo. Por lo que reenvío mi opinión. Disculpas

Jackeline Alger, MD,
PhD
Aug. 6, 2018

Un saludo desde la Unidad de Investigación Científica de la Facultad de Ciencias Médicas UNAH, Tegucigalpa, Honduras. Este día 6 de agosto de 2018 se ha realizado el Primer Taller del Proyecto PREVALENCIA DE USO Y ABUSO DE ALCOHOL Y OTRAS DROGAS EN PERSONAS MAYORES DE 18 AÑOS EN LAS ÁREAS DE INFLUENCIA DE LOS MÉDICOS EN SERVICIO SOCIAL (MSS) MARZO 2018-2019. Los MSS son estudiantes del último año (Año Ocho) de la Carrera de Medicina. Los cursos en línea que se tomarán a través de la plataforma TGHN son RESPONSABILIDADES DE LOS INVESTIGADORES EN CUANTO A LAS BPC y LA PREGUNTA DE INVESTIGACIÓN. Período para tomar ambos cursos: agosto - octubre 2018. Éxitos en el desarrollo del Proyecto!
